## Milk Bags For Mats

As a Lenten project this year, students from St. Patrick Catholic School, Harrowsmith, decided to collect plastic milk bags, which will eventually be made into woven mats. The bags will be sent to Dufferin-Peel Catholic School Board, where they will be woven into mats for victims of the ebola virus in West Africa. The goal: 1,000 milk bags. The result: almost 4,000 milk bags to date! Local parishes and the community have joined in this cause. Congratulations to all students and families who are improving the quality of life of those less fortunate than ourselves. We will continue to collect milk bags until the end of this school year.
