## Michelle Bonneau visits Mother Teresa

Special guest, Michelle Bonneau, visited Mother Teresa Catholic School and the grade 7 and 8 students. Michelle has been working for 15 years in Nepal. She is the founder of IWEN (Inter-cultural Women's Educational Network), an organization which supports the rights to freedom and education for the women of Nepal through scholarships, education on basic life-skills, literacy classes and the constant fight against female child labor.

Students got to live the reality of life in Nepal through role-play and were able to visualize many of the hardships. They are hoping to help IWEN through fundraisers in the next few months. Staff of Mother Teresa were able to purchase scarves made by the women of Nepal and now wear them with great pride.
